Dear Friends,
Greetings!

The Indian plastic industry has taken great strides towards a promising future. In the past few years, the industry has progressed to the level of being on of the leading sectors contributing to India's economic growth.

With the use of plastics becoming prominent in different spheres of our lives, there is also a significant increase in innovations of polymer technology, processing machines, auxiliary equipments and cost-effective manufacturing processes to keep up with rising global demands.

The team of 16 members from PRASAD, India which include sales and technical people from Ahmedabad along with all branch heads have been to K-2013 for all the days to understand new technology and to attend all Indian visitors.

With the zest to showcase our extensive portfolio and our innovative technologies, we will yet again be a part of Plastivision 2013 and we invite you to visit us.

We look forward to meeting you.

Thanking you,
Prakash Shah

Chairman

Technology display by PRASAD at Plastivision 2013

Alfa series efficient De-Humidified dryer with variable flow and monitored dew point, Central conveying system, Modular gravimetric dosing system.

Mould cleaning equipment for better cycle time and higher productivity, Mould sweat protector, Mould temperature controller and Chilling plant.

New design high speed servo robot system with flexible and extremely easy to learn programming system in live demonstration.

Conveyor belts for various products on Injection moulding machine and Blow moulding machine.

Slow speed dust free and Patented IMD series Granulator with integrated metal detection circuit to protect the cutter.

Open hearted structure even for bigger Grinder for cleaning and maintenance. Granulator with integral dust separation and material transport.

Bulk material handling solution and Plant automation for PVC Pipe & profile, Master batch compounding and PET Flakes transfer system(Models).

Proud Association - Ashirvad Pipes Pvt. Ltd.

Always first Always best

ashirvad

Since 1975

Ashirvad Pipes Pvt. Ltd., Bangalore is the pioneer in designing, developing and manufacturing CPVC riser/drop/column pipes & fitting.

Ashirvad today is one of the largest plastic pipe manufacturers in the country.

Ashirvad is the licensee of Lubrizol – USA, for manufacturing and marketing FLOWGUARD CPVC (Chlorinated Polyvinyl Chloride) plumbing systems, for Hot & Cold Water applications, in India.

Dear Friends,

Ashirvad & Prasad's business association began in the year 1998 with chilling plant.

Today our entire plant Material Handling System for Pipe Extruders and Injection Moulding Machines as well as Chilling Plants supplied by Prasad Group for PVC and CPVC pipe and fittings manufacturing divisions.

Performance of entire Automation system has been running at our satisfactory level, which has helped us in eliminating wastage, reducing labour and increased productivity of mixer for more batches.

We appreciate highly professional trained team of Prasad for doing successful installation on our existing operational plant with minimum production halt and implemented whole project with all the necessary modifications suited for Indian working environment.

We would like to have such strong association with Prasad Group in future too.

Thanking you,

Mr. S. Ravi Jebakumar
Vice President - Operations
