PRASAD GROUP

cordially invites

you to visit

Hall: 1 , Stall : D2-1

PLASTIVISION 2011

Bombay Exhibition Centre,

Goregaon, Mumbai, India

January 20th - 24th, 2011

Inspiration...

"Happiness is when what you think, what you say, and what you do are in harmony."

- Mahatma Gandhi

"The world is the great gymnasium where we come to make ourselves strong."

- Swami Vivekananda

"Man needs his difficulties because they are necessary to enjoy success."

- Dr A.P.J. Abdul Kalam

Dear Friends,

We wish you a very happy New Year!

The automation display during K-2010 was amazing with vivid innovative and cost-effective equipments. We were delighted to see the successful and live installation of all our partners on high throughput Extrusion plant, Injection moulding and also multi layer blow moulding machines.

The last year witnessed various mergers, collaboration and tie-ups in the plastics industry. Such emerging market will also demand versatile and flexible technology.

Keeping the same spirit alive, with the Plastivision 2011 coming up, plastic industry will once again get the privilege to demonstrate high-tech processing machines and various high-end recycling applications.

We have been participating in Plastivision since 1998. This fifth participation of Prasad Group will bring on display equipments with more than 25 leading machine manufacturers.

Thanking you,

Prakash Shah

Chairman

Technology displayed by our partners at K-2010

Alfa series energy efficient De-Humidified dryer with variable flow and monitored dew point, Modular Gravimetric system and SCADA - Computerised controlled Automation.

Mould cleaning equipment for better cycle time and higher productivity, Multi circuit mould temperature controller for accurate temperature controlling at different locations in the mould.

Introduced a completely new powerful and extremely easy to learn programming system for robots with very high speed – the wemo WIPS generation

Conveyor belt for high output PET Preform moulding, Online parts & sprue separation system with counting and stacking carousel.

Slow speed dust free Granulator and Patented IMD Series Granulator with integrated metal detection circuit to protect the cutter.

Open hearted structure even for bigger Grinder for cleaning and maintenance. Granulator with integral dust separation and Inline granulator for Sheet side/ thermoforming waste.

Bulk material handling solution and Plant automation for PVC Pipe & profile, Master batch compounding and PET Flakes transfer system.

A glimpse of K-2010

Prasad Solutions **live** to be displayed

at Plastivision India 2011

with following reputed machinery manufacturers
